PROJECTS

Library Management System

Library Management System using C# and Windows Forms with user authentication, book management, and borrowing/return tracking. Integrated an intuitive dashboard and SQL database for efficient data handling.

Doctor Appointment System

Doctor Appointment Booking System using HTML, CSS, and JavaScript, allowing users to schedule, manage, and cancel appointments seamlessly. Designed a responsive and user-friendly interface for enhanced accessibility. Integrated form validation and interactive UI elements to improve user experience.

Tic-Tac-Toe game

Developed a Tic-Tac-Toe game using C# and Windows Forms, featuring a user-friendly interface, real-time gameplay, and win/draw detection. Implemented game logic for both single and multiplayer modes.

Portfolio

Developed a full responsive portfolio for personal use using HTML, CSS, and JavaScript.

Login page

Developed a Login Page using HTML, CSS, and JavaScript, featuring user authentication, form validation, and a responsive design for a seamless user experience.
